

Developer's Name: Gabriel Pedraza-Torres

Project: Moffat Bay Lodge & Marina (Landing Page & Reservation Look-up)

Course: Capstone in Software Development

Description: Create a website designed to promote and help book stays at the Moffat Bay Lodge & Marina.

Date: 11/12/2023

To complete the test case plan, fill out the information for Project, Course, Description and Date in the header below.

For each test, the developer should: Provide a test description, a test objective, the developer's name and date tested. For each step, fill out the actions to be taken and describe the expected results, and indicate yes or no for each step depending upon the result. The peer tester should provide their name, date tested, indicate yes or no for each step depending upon the result, and a screenshot (thumbnail) of the result.

<b>Test # 1</b>	<b>Basic Functionality: Landing Page</b>	<b>Developer Name:</b> Gabriel Pedraza <b>Date Tested:</b> 11/23/2023	<b>Peer Tester:</b> <b>Date Tested:</b>
<b>Objective</b>	To ensure that the correct content is portrayed on the browser from the link.		
<b>Step</b>	<b>Action</b>	<b>Expected Results</b>	<b>Developer Pass/Fail</b>
<b>1</b>	Click on the link for the website.	The browser would open a tab automatically and direct the user to the desired website.	Pass
<b>2</b>	The browser should direct you to the landing page for the Moffat Bay Lodge & Marina.	All text and images are displayed properly while being able to click on the	Pass
<b>Comments</b>	While the content does come up properly, this is only the case when the website is at full size. The images decorating the landing page are in odd positions when the page is adjusted in size to something smaller.		

<b>Test # 2</b>	<b>Navigation Functionality: Landing Page</b>	<b>Developer Name:</b> Gabriel Pedraza <b>Date Tested:</b> 11/23/2023	<b>Peer Tester:</b> <b>Date Tested:</b>
<b>Objective</b>	To ensure that the navigation tabs interact and re-direct the user properly.		
<b>Step</b>	<b>Action</b>	<b>Expected Results</b>	<b>Developer Pass/Fail</b>
<b>1</b>	Click on the link for the website.	The browser would open a tab automatically and direct the user to the desired website.	Pass
<b>2</b>	The browser should direct you to the landing page for the Moffat Bay Lodge & Marina.	All text and images are displayed properly while being able to click on the	Pass
<b>3</b>	Hover your cursor and then click on the navigational words such as "Home" or "About Us".	When the user hovers over the navigational words, the cursor changes to be interactable and if clicked, will change the page to the directed location.	Pass
<b>Comments</b>	While the buttons/navigation words do interact properly, their destination or re-direction link does need to be integrated.		

<b>Test # 3</b>	<b>Basic Functionality: Reservation Look-Up page</b>	<b>Developer Name:</b> Gabriel Pedraza <b>Date Tested:</b> 11/23/2023	<b>Peer Tester:</b> <b>Date Tested:</b>
-----------------	--	--	--

<b>Objective</b>	To ensure that the correct content is portrayed on the browser from the link.		
<b>Step</b>	<b>Action</b>	<b>Expected Results</b>	<b>Developer Pass/Fail</b>
<b>1</b>	Click on the link for the website.	The browser would open a tab automatically and direct the user to the desired website.	Pass
<b>2</b>	The browser should direct you to the reservation look-up page for the Moffat Bay Lodge & Marina.	All text and images are displayed properly while being able to click on the	Pass
<b>Comments</b>	While the content does come up properly, there is a lot of uniformity that needs to be completed to match the aesthetic of the landing page. MOST importantly the navigation bar to re-direct back to the home page.		

<b>Test # 4</b>	<b>User Input Functionality: Reservation Look-Up page</b>	<b>Developer Name:</b> Gabriel Pedraza <b>Date Tested:</b> 11/23/2023	<b>Peer Tester:</b> <b>Date Tested:</b>
<b>Objective</b>	To make sure that input fields need to be filled before submission is allowed and displays the correct error message.		
<b>Step</b>	<b>Action</b>	<b>Expected Results</b>	<b>Developer Pass/Fail</b>
<b>1</b>	Click on the link for the website.	The browser would open a tab automatically and direct the user to the desired website.	Pass
<b>2</b>			Pass

	The browser should direct you to the reservation look-up page for the Moffat Bay Lodge & Marina.	All text and images are displayed properly while being able to click on the	
<b>3</b>	Click submit without entering any text into the reservation number field.	Error message informs the user on what needs to happen for submission.	Pass
<b>4</b>	Enter any text into the reservation number field without entering any text into the PLACEHOLDER field.	Error message informs the user on what needs to happen for submission.	Pass
<b>5</b>	Enter text into both fields and then click on the submit button	The page reloads or interacts submits the entry without an error.	Pass
<b>Comments</b>	While the fields work properly at a basic level, they both need more rules set in place for the necessary entries.
